

## **Environmental Policy**

MPI Engineered Technologies is a premier metal forming supplier providing innovative products, quality, technology, and designed solutions to our customers. We are committed to develop, implement, and maintain an Environmental Management System that is compliant to International Standard ISO 14001, and to setting impactful environmental objectives. The MPI leadership team is committed to:

- Continual improvement of the environmental management system to enhance environmental performance using employee involvement and data driven decisions.
- The protection of the environment, including prevention of pollution and waste, while maximizing reuse/recycling.
- Compliance with all applicable federal, state, and local requirements.
- Actively seek input from all applicable stakeholders considering their needs.
